THE WORLD'S BIGGEST MAGNET A hundred members of the Society of American Civil Engineers, with their wives and friends, witnessed some remarkaole results on Thursday last at an exhibition given by Colonel William King, commandant of the United States Engineer Corps at Willet's Point, L. I., sal Passages,
Allays Pain and
Inflammation.

Engineer Corps at Willet's Point, L. I.,
of his huge gun magnet. The large 15inch gun wrapped with a dozen miles inch gun wrapped with a dozen miles of insulated wire forms the most powerful magnet in the world. The electricity is supplied by a large dynamo, and is the invention of Colonel King. The will cure Hay-fever. A particle is applied in cach nostril and is agreeable. Price 50 cents be turned on. Some of the spectators were given spikes and other scrap iron which they found was perfectly magne-tized at a distance of 8 to 10 yards from Webb's-will cure the worst case of Chills the gun, so that when they put two pieces together it was difficult to sep monials from leading citizens. Cure gus ranteed or money refunded. It the iron in the air, when it would be at tracted with much force to the core of the magnet.

The experiment with the cannon balls was next shown. Five balls weighing 350 pounds each were suspended, one beneath the other, from the muzzle of the gun. The bottom ball hung within a few inches of the ground. Lieutenant Morrow told the spectators that there was not room for another, thus creating the belief among the already astounded people that the to suspend them. Probably the most interesting experiment tried was in illustrating how the gun will magnetize ASTER. even a human body. Lieutenant Mor-row stood with his back toward the muzzle of the gun and stuck large bolts and spikes all over his chest, out side a big ulster. Other scrap iron was also applied, and attracted by that which already clung to his coat. He walked away from the magnet, and several seconds' time had elapsed be-fore the last of the iron, which covered his breast, dropped to the ground.

> THE CORPSE ROSE UP .- Mrs. Jose phine Halliday, the wife of a Broadford Pa, coal miner, was found by her brother, William Crossland, on "The Narrows," a lonely spot two miles west of Connellsvide, Pa., on Sunday morning. She was dead, apparently, but a physician was called, and lat r Coroner A. J. Batton of Uniontown.

Several tests, including needle tests of death, were made, and it was concluded that the woman was dead. On Morning Deputy Coroner James Echard, of Connellsville, selected a jury and then entered a room where the supposed corpse was lying covered with a sheet. Numerous friends, rela-tives and witnesses were present. Just as the deputy coroner was about to swear in the jury the corpse arose on her elbow and inquired in a bewildered way what all the fuss was about.

Immediately there was a wild stam-pede for the outside, the deputy coroner alone remaining. He explained the circumstances to Mrs. Halliday. Tha news spread like wildfire, and a crowd had collected, but Mrs. Halliday appeased their curiosity unceremoniously by walking out into the front room and ordering them away. She has been accustomed to taking opium and is supposed to have taken an overdose.

### Brown's Iron Bitters

brings weak people up to the standard of health—feeds the blood—acts on the nerves—strengthens the muscles. It brings the blush of youth to weary women's cheeks—is a boon to the invalid—refreshes and renews life in the aged—nourishes the weak, puny child—briefly said, it gives strength, and strength cannot exist without perfect health. It is a neces dard of health-feeds the blood-acts without perfect health. It is a necessity in every family. It does not injure the teeth or cause constipation.
